

# MATHEMATICS SOCIETY

## General Interest Meeting

### Fractals: The Building Blocks of the Universe

Why is a dragon curve a fractal and where can I get one?

Come learn about the role that self-similarity plays in the universe.

Thursday, October 29

### Math Classes Preview

Math is a universal language of many tongues. Interested in taking your quantitative skills even further? Get a feeling for math classes at Baruch by working through a selection of problems from various courses.

Thursday, November 3

### Math in Video Games

What is "linear algebra" and what does it have to do with video games? Learn about the fancy planar graphs that make Skyrim all dragony and stuff.

Thursday, November 10

### Math Interview Questions You Should Know

Go ahead, put math on your resume. But go to this presentation first.

Thursday, November 17

Thursdays, VC 9-117, 12:45-2:00 pm

Refreshments will be served.
